

## THE KINDERGARTEN STARTERS - DUBAI

KGS / C/ 365-21

CIRCULAR

21/02/2021

Dear Parents,

We are approaching the end of this very unique academic session 2020-21, with most of it being remote learning and some of it being a combination of blended and face-to-face learning for our students. Despite the lockdown and the challenges of remote learning, our kindergarteners have overcome them all and have emerged successful with their learning being unstoppable. It is unbelievable, yet true that most of our KG-1 students have completed a year of learning and have made good progress without physically stepping into their school or meeting their friends and teachers face-to-face.

At KGS, we remain committed to providing a positive and stimulating learning environment, where our students feel safe, happy and challenged to think deep, enquire and discover their creativity and strengths, as we reinforce life-long and life-worthy learning.

We would like to take this opportunity to thank you for the unparalleled support provided by you, both to your child and to the school during this unique learning journey. You have been our equal partners in teaching and have made all the hands on resources requested available at home as a result of which our students did not miss out on the hands-on experiential learning. You made sure that your child completed all the tasks and submitted them online and on time so that we could track their progress and measure the impact of remote learning on student achievement. We thank you immensely for being the pillar of support to our children and for helping us steer their learning remotely.

We have already begun the final round of one-on-one assessments and would be providing you feedback about their overall progress, strengths and next steps by mid-March. Please note that the **last working day for the students of KG1 and KG2 for this academic year will be Thursday, 11<sup>th</sup> March 2021.**

Thank you once again for your continued support, understanding and deep engagement as we together nurture our students and make them worthy citizens of tomorrow.

Warm regards,

**Asha Alexander**
