**KHDA PARENT SURVEY –  
DIGITAL TECHNOLOGY AND AI IN EARLY CHILDHOOD EDUCATION**

Dear Parents,

We would like to inform you that the **Knowledge and Human Development Authority (KHDA)** is conducting a study to better understand the **use of digital technology and Artificial Intelligence (AI) in Early Childhood Centres (ECCs) in Dubai**.

As part of this study, KHDA is seeking parents' perspectives to understand how digital technologies and AI influence children's learning experiences and how early childhood centres can further support families in adapting to these advancements. Your participation will contribute to informed decision-making by policymakers and educational communities, ultimately enhancing children's learning outcomes.

To capture families' views, KHDA has designed a Parent Survey, which will take approximately 10–15 minutes to complete.

Please be assured that:

- All information shared through the survey will remain **strictly confidential**
- Responses will be used **solely for research purposes**
- **No individual identities or responses** will be disclosed to any external parties

The survey will remain open until 6 February 2026. We kindly request all parents to complete the survey within the given timeline, as your feedback is invaluable to this important initiative.

We sincerely appreciate your cooperation and support in partnering with KHDA to strengthen early childhood education in Dubai.

Warm regards,
