GLS Among The Top 10 In The World For Environment Action

Dear parents,

We are proud to share with you that our school has been shortlisted among the TOP TEN in the world for the World's Best School Prizes in the Environment Action category by T4 Education.

Our students have been exemplary, and their passion and engagement are the foremost reasons to be considered for this shortlist as their engagement has been nothing short of extraordinary.

A big shout out goes to all our teachers and leaders for the excellent foundations laid and for incorporating climate literacy in the day-to-day lessons. Every member of GLS has ensured active engagement of all our students in Plant A Legacy (PAL), School Conference of Parties Exposition (SCOPE) and SDG projects over several years and have collaborated with schools worldwide. This is one of the key reasons that we have been shortlisted for the prize.

I am proud that every teacher and leader in GLS is a UN certified climate change teacher and have honed the skills of our students to a remarkable level as they articulate their thoughts and take concerted climate actions in an informed and competent manner.

Our students have benefited immensely through our partnerships with International Organizations like UNCC Learn, UNITAR and UNESCO as well as industry giants like SIEMENS and local organizations such as DEWA and DULSCO, which has been recognized by being shortlisted for this award. Our twinning partnerships with schools in Malawi, Qatar, India, Australia, Italy and other schools worldwide have made Education for Sustainable Development a global collaboration and has helped in collectively raising student voice and actions to mitigate climate change.

We wish to thank all our parents who have been our very backbone, engaging wholeheartedly in all our endeavors and providing us with their timely and constructive feedback. Thank you for your enthusiastic participation in all our sustainability endeavours.

Over the next few months [June through September] we will keep up the momentum and hope that we will be able to win the prize. This is but a milestone on our journey.

Looking forward to your support and encouragement in all our future environmental initiatives and in spreading this collective consciousness towards our only one planet.

Warm regards,

Asha Alexander
