### KG Reggio Inspired Exhibition and Open House

---

Dear parents,

We all want to be happy. When we are happy, we are productive, we are good at building meaningful relationships with those around us, and we feel great!

Inspired by Dr. Martin Seligman's PERMA Model of well-being, we at GLS have adopted the PERMAH model of well-being. Our little Kindergarteners have examined carefully the six dimensions of PERMAH, which will help them achieve success and create well-being in all spheres of their life. They have expressed their innovative ideas, creations, and solutions to display what we need to do to flourish and be happy as a result!

This Reggio-Inspired Exhibition put up by our students of Kindergarten, is an artistic creation and expression of our students' exploration and engagement, which will make all of us pause, ponder and reflect on our lives. The Reggio Emilia inspired approach to early childhood education focuses on celebrating the hundred languages that refer to the many forms of expressions that students use to interact with their world. The provocations provided to the students have facilitated this enquiry, the outcome of which you will see in the exhibition.

We are happy to present to you the exemplary work done by our students from Kindergarten as part of their thematic exhibition – 'Are you **PERMAH**licious?' With the focus on learner's creation, we culminate the Sustainable Developmental Goal # 3- Good Health & Well – Being.'

After viewing the exhibition, you may proceed to your child's class to meet the class teacher and discuss the academic progress for the term April- June 2022. Kindly adhere to the date and time slot given to you as below:
