Plant a Legacy - International Day of Forests

Dear Parents,

We are celebrating the **International Day of Forests on 21st March**, as we believe that tree planting is the most brilliant way to help the environment. The theme for 2023 is '**Forests and Health**'. Trees purify the air and water around us, capture carbon to fight climate change, provide food and life-saving medicines, and improve our well-being. It is up to us to grow more trees and protect these precious natural resources. We want all our children and others around the world to plant more trees and support this cause.

In continuing our pledge to plant 15,000 trees each year through #PAL Plant a Legacy Project, we are requesting each one of you to plant a tree by 21st March 2023.

The requirements for the tree plantation are as follows:

Step 1- Plant one or more tree saplings in the earth anywhere in the world (not a potted plant).

Step 2- Take a selfie with the newly planted sapling, post as your Instagram story and tag GEMS Legacy school Dubai @gemslegacyschooldubai. Also, request you to send the picture to the class teacher.

Step 3- Make sure someone cares for the plant that has been planted.

I am sure with your support we will cross our 15,000-tree planting target!

Thank you.

Warm regards,

Asha Alexander
