CIRCULAR
Right to Read

20 June 2023

Dear Parent,

The much celebrated **'Right to Read'** will mark the close of the first term of this academic year 2023 - 2024. The theme for this edition is **'Mastering Reading Skills and Techniques'** and the planned reading activities and workshops will be conducted from **21st June 2023 (Wednesday) to 26th June 2023 (Monday)**.

The management and staff at GEMS Legacy School strongly believe that it is imperative for students to build their global understanding while reading and create a mental mind map of related ideas. We aim to not think of reading and writing as separate processes that should be taught separately. Students who get plenty of chances to write in conjunction with reading strengthen skills in both areas, including critical thinking.

The activities planned during the reading week are aimed at developing multiple core literacy skills and helping all learners develop a lifelong love of both reading and writing. Additional details will be provided by the respective class teacher.

We look forward to your wholehearted support.

Warm regards,

Asha Alexander آشا ألكسندر
